

Yohannes Asnake

FRONTEND DEVELOPER · ASPIRING FULL-STACK / AI ENGINEER

Addis Ababa, Ethiopia | 251-972183-015 | joe.asn03@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

First-year Computer Science student at Addis Ababa University with hands-on frontend development experience building React and TypeScript applications. Skilled in React, TypeScript, Tailwind CSS, Supabase, responsive design, and API integration, with experience delivering complete projects including interactive galleries and portfolio websites. Seeking a software engineering internship to contribute to meaningful products while continuing to grow as an engineer.

EDUCATION

Addis Ababa University

B.Sc., Computer Science

Sep 2025 - Present

Addis Ababa, Ethiopia

- **Coursework:** c++ programming basics, introduction to computer science

Certifications

- freeCodeCamp: Responsive Web Design · JavaScript Algorithms and Data Structures · Front End Development Libraries
- Scrimba - Backend Developer Career Path: In Progress

PROFESSIONAL EXPERIENCE

CodeAlpha

May 2026 - Jun 2026

Frontend Development Intern

Remote

- Developed and shipped a fully functional calculator application and an interactive image gallery with an upload modal, drag-and-drop support, camera capture, and search and filter functionality.
- Created a personal portfolio website using UI/UX design principles to showcase internship deliverables and project case studies.

PROJECTS

Luxury E-Commerce Platform

- Built a full-featured e-commerce frontend with React, including product browsing, cart functionality, authentication, and dynamic product and order routing using React Router v7.
- Migrated the data layer from a mock API to Supabase, implementing real authentication and a typed schema for product and order data.
- Optimized hero video performance and Speed Index, and designed reusable TypeScript interfaces across the app.

Carrier AI - Resume Analyzer

- Developed an AI-powered resume analysis tool that parses resumes and uses the Gemini API to return structured, actionable feedback.

Personal Developer Portfolio

- Designed and built a two-panel, sticky-layout portfolio site with a dark/light theme system and a git-commit-styled project timeline documenting case studies.

Zefmesh Furniture - Website Design Proposal

- Designed a website concept and presentation deck for a furniture client, translating brand direction into page layouts and UI concepts for client sign-off.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, C++, Python (fundamentals)
- **Frameworks & Libraries:** React, React Router, Tailwind CSS
- **Tools & Platforms:** Supabase (Auth & DB), Git/GitHub, Vite
- **Core Concepts:** Responsive/Mobile-first Design, REST API Integration, UI/UX Design Principles
